RE: Plasco Trail Road Demonstration Project

Dear Mr. Bryden:

The Ministry is in receipt of an application from Plasco to make alterations to the air pollution control system at the Plasco Trail Road facility. While a review of that application is ongoing, please be advised that as a Director for the purposes of Sections 9 and 39 of the Environmental Protection Act, I hereby grant temporary approval to Plasco to operate the facility, including the gas engines, with the following two changes:

1. Rerouting of the engine exhaust to the existing flare system, if required; and
2. By-passing of the activated carbon filter.

This approval is valid from 8:00 am until 5:00 pm on Thursday, October 16, 2008.

All conditions in the previously issued Certificates of Approval issued for this facility remain in effect.

Please be advised that while Ministry staff will complete the engineering review of the full application as quickly as possible, they may request additional information or clarification.

In the meantime, should you have any questions or concerns about this letter, please do not hesitate to contact me at (416) 314-3636.

Sincerely,

A handwritten signature in black ink, appearing to read "Ian Parrott".

Ian Parrott, P.Eng.
